Sustainability EEvent

Global Startup Weekend Sustainability Revolution

Do you have an idea that can help build sustainability, but don't know where to begin? Do you want to take action against climate change and need help for your ideas to move forward to a more sustainable world in Sacramento? Thomas Hall, our SacEV Treasurer, has given a heads up on an interesting upcoming event. Join in and unleash your creative ideas.

June 21-23 is the Global Startup Weekend Sustainability Revolution, bringing Sacramento together to build solutions. We have 15 challenges finding solutions to waste, climate change, emissions, and more. We are volunteers and community groups who have focused on building entrepreneurship and sustainability businesses in the region. #GSWSR #MySustainableRevolution.

[Check out the challenges](#) and [sign up here](#). Share your thoughts on [Facebook](#), Instagram, and twitter with the tags #GSWSR and #MySustainableRevolution. Special discount code for SacEV Members: "CleanStartPart".

Other EEvents

Heavy Duty EVs! Check Out School Buses, Garbage Trucks, More...

We get so wrapped up in our frequent focus on light duty EVs, that we forget about all the work going on with heavy duty trucks. Here's an opportunity to check them out, show off your own EV, and get a free lunch in the process.

Clean Cities Sacramento is asking for EVs to display during the Vehicle Fleet Technician and Fleet Manager Training Academy on June 12 & 13, Wed & Thu, at the Mather Campus of American River College. The best time is during lunch on those two days. You'll get a free lunch (BBQ on Wed and pizza on Thu).

On display will be the [BEV Refuse trucks](#) (two now in Sacramento County), a [Lion electric school bus](#), a [Motiv electric school bus](#), a [Motiv electric delivery truck](#), and a [DANNAR Mobile Power Station](#).

Date: Wednesday - Thursday, June 12-13, 2019
Time: 11:15am – 12:15pm
Location: 3587 Bleckely St, Mather, CA 95655
Contact: Guy Hall at (916) 717-9158 or Guy.Hall@SacEV.org or Tim Taylor, Sacramento Clean Cities Coalition at (916) 206-2911 or ExecDirectorSacCleanCities@gmail.com

George Washington Carver High—Ultra Safe & Clean Cars

Judges Needed!

G. W. Carver High could use SacEV help and support for their annual Ultra Safe/Ultra Clean Car project. Students are acting as research and design engineers at the "Phoenix Motor Company" designing an ultra safe/ultra clean vehicle. For the final, they are to present their vehicle proposals to company stockholders. Students need SacEV members to act as the stockholders.

This is an opportunity for fun and engagement with high school engineering students learning about physics through the clean car design and presentation competition. This is our fourth year participating in the program.

Team presentations will take place during student class periods over several days. SacEV members are asked to be judges at one, two, or all three presentations.

-June 10, 8:30am to 10:40am

-June 11, 8:30am to 12:50pm (two presentation blocks with a break today)

-June 12, 10:45am to 12:50pm

Location: George Washington Carver School of Arts and Science, 10101 Systems Pkwy, Sacramento

Contact: Dana Jenks - Physics Teacher and CarverHub broadcast team advisor at (916) 395-5266

Wind Farm EV Tour

The Delta breezes of Solano County are producing electricity for thousands of SMUD customers. Located in the Montezuma Hills near Rio Vista, SMUD's wind farm currently has a generation capacity of over 600 megawatts. Once per month, SMUD provides a special tour of their wind farms, and we have the June slot for Wednesday, 6/19 at 10AM.

SOLD OUT, but wait list available. Reply for a spot, including the number in your group. There is one charger in Rio Vista City Hall.

AFTERWARDS: We will meet afterwards at Fosters Bighorn for lunch to continue the conversation with our guide. Foster's Big Horn (<http://fostersbighorn.com>) at 143 Main Street, Rio Vista (707-374-2511). [Click Here for Info and Registration](#)

Cal ISO Tour — **SOLD OUT**, but wait list available

Cal ISO coordinates, controls and monitors the operation of the electrical power systems in most of California. It needs to continually balance electrical supply and demand. It's becoming the center of attention as renewables and EV come on the scene, both with wildly fluctuating characteristics.

Our June slot is sold out. We'll try to arrange another tour later this year. Keep watching this space!
