Cost of Ownership Survey

I encourage you to participate in a short survey conducted by a CARB summer intern regarding the total cost of ownership of plug-in vehicles.

My name is Gaby Uribe. I'm an undergraduate intern working at the California Air Resources Board this summer! My research project is on the total cost of ownership (TCO) of ZEVs. As part of my project, I thought it would be enlightening to gather vehicle model, insurance cost, and maintenance cost information from the drivers of the plug-in vehicles using the City Hall parking garage.

It would help me greatly if you could spend 2 minutes to fill out this quick [survey](#) so I can gather data to discover any trends in costs of owning ZEVs. It will take little time to complete and I appreciate any responses you provide. Responses will be accepted until August 16.

If interested in my ZEVTCO report, at the end of August, contact me (gabriella.uribe@arb.a.gov).

Thank you for your time!
Best, Gaby Uribe

Regional News

DC Fast Charging Update

The Sacramento region has **over 50 DC Fast Charging EV refueling plazas** already installed or under construction. Many of the newer chargers are over 100 kW. There is a 350kW charger that will go live in the next few months. You'll be able to find it near Target in the Rocklin Commons.

Here's a [link to the website](#), which has the latest information on the Electrify America fast charge locations.

Davis EV Association Meeting

Join the SacEV and Davis EV Associations Wednesday for an EV interest group meetup. Free and open to the public.

Date: August 14, 2018

Time: 6:00 pm to 7:30 p.

Location: Office of Repower Yolo, 909 Fifth Street, Davis, CA 95616

Food and drink will be provided.

DEVA is jointly sponsored by Cool Davis and SacEV.

EVs at the Davis Farmers Market

The SacEV and Davis EV Associations (DEVA) display an EV at every Davis Farmers Market. Each display includes an EV, the EV's owner, and one or two helpers who pass out literature and answer questions from shoppers. If you haven't been to the Davis Farmers Market, you are in for a treat.

We typically display on the 3rd Saturday of the month. We are currently looking for August 17 helpers. Contact Robert Poeschel if you can join in at robert.poeschel@gmail.com.

Reno EAA Activities

Time's Up for Reno Hot August Nights

The NorCal-Reno Tesla Owner's Club is heading to Hot August Nights in Reno to show off our cutting-edge technology among all those classic cars. The event ticket sales are now closed. A quick reminder of activities for the 40 or so that signed up:

Friday

- Informal no host meetup of owners around 6:00pm at The Jesse

Saturday

- Informal no host breakfast at the Marriott Courtyard
- Meet with other EV owners for the grand opening of the Reno Tesla store. Cost \$40 which covers a commemorative t-shirt, food, and band. Sign up [here](#).
- Electric Cars & Coffee, 9-11 am. Join us in the morning for a informal EV meetup and coffee at the roastery warehouse of Glory Cloud Coffee! More event info on Electric Cars & Coffee here:

Sunday

- Informal no host breakfast at the Marriott Courtyard

Start: Friday, August 9, 2019

End: Sunday, August 11, 2019

EV Cruise to Minden, Nevada

Join us for a short road trip on August 24, 2019, to [Minden, NV](#) just east of Lake Tahoe's south shore, where we will take a tour of the [Bently Heritage Distillery](#). Inspired by the distilleries of the old world, Bently uses only grains grown on their ranch in Nevada. [Bently Ranch](#) sustainably grows and harvests winter rye, wheat, oats, and barley, which they malt in-house on their malting floor.

Also, check the special [Dangberg Main Street Event Show and Shine Car Show](#) on the same day.

The tour is \$10, or \$20 if you include tasting. Contact Melissa at NevadaEAA@gmail.com to RSVP.

Fun SacEV Activities

Official Vikingsholm 90th Celebration

Join us for the Tahoe highlight of the summer as we celebrate the 90th birthday of Vikingsholm! Drive down to the castle to enjoy a tour, catered reception with fine wine, followed by a special presentation featuring Dr. Helen Smith. The evening will end with cake and a bubbly toast. **NO TICKETS LEFT!**

This fundraiser celebrates the new Vikingsholm Forever Endowment Fund. Yes...gifts, please!

Cost: \$90 per person

Date: August 24, 2019

Time: 5:00pm - 8:00pm

Location: Vikingsholm parking lot on Highway 89 at Emerald Bay, CA

Organizer Sierra State Parks Foundation

Phone: (530) 583-9911

Website: <https://sierrastateparks.org/>

Tickets: [Click Here](#)

Mammoth Lakes Drive Electric Week

The Mammoth Lakes EAA chapter wants EV owners to provide rides for potential EV buyers. They hope for a variety of EVs. The organizers also need educators and volunteers to help with sign-ups and to perform other tasks. This event was very successful last year. Great attendance is expected again. Raffles and prizes!

Overnight housing will be provided.

Date: Sep. 14, 2019

Time: 11:00am to 5:00pm

Where: 6201 Minaret Rd., Mammoth Lakes, CA 93546

Remember check majestic Mammoth Lakes. The year-round adventure land is one of those places that you have to see to believe. Tesla Supercharger and multiple Level 2 EVSEs are available at Mammoth Lakes.

To volunteer, contact Don Condon at condon.don@gmail.com or (510) 467-2197.

Upcoming Webinars

Power Players:

The Women Leading Transportation Electrification

Join us Thursday, August 29, at 10:00am–11:15am (PDT) for this 75-minute webinar. More information to come soon!

The webinar is free. Save the date. Registration information will be sent later.

Mobility Data Sharing: Middle Ground Approach

Tuesday, August 20 · 10:00 – 11:00 am

Speakers:

- **Austin Brown** - Executive Director, Policy Institute for Energy, Environment, and the Economy, UC Davis
- **Paige Pellaton** - Graduate Student Researcher, Policy Institute for Energy, Environment, and the Economy, UC Davis

Dynamic and responsive transportation systems are a core pillar of equitable and sustainable communities. Achieving such systems requires comprehensive mobility data, data which reports the movement of individuals and vehicles. Oversharing and undersharing mobility data are both problematic. We argue for a middle-ground approach.
